

# Summer Camp at Al Hail Cricket Club

Cricket · Sports

21 Jul 2019 [+2 more](#)

Ahlam bint Rashed al Khamesi, president of Summer Sports Programme Muscat Team from Ministry of Sports Affairs, has generously been supporting the annual Summer Camp being held at the Al Hail Cricket Club.

The Ministry of Sports Affairs has taken some pathbreaking initiatives for introducing various sports activities during the summer months.

Under this programme, cricket has been chosen as one of the main-stream sports.

The ministry has chosen the Al Hail Cricket Academy to undertake and lead the cricketing initiative, which is a huge honour and recognition for the academy.

The year 2019 will be the fourth year running of the Al Hail Cricket Academy managing this annual

event.

Abdul Ghani al Balushi, head coach, Al Hail School of Cricket, stated that the Summer Camp is commencing from July 23, running up to August 22.

He added that players can expect an expertly designed and delivered fun-filled month of cricket coaching, games and cricket skill development, all inside our world class, fully grassed ground. All run by fully qualified, professional coaching team of Omanis/expats.

The camp is for boys aged between 5-19 years old. Whether it's your first experience with cricket or you are an existing Al Hail School of Cricket warrior, we also invite players from others academies/teams/clubs to join our summer camps. We guarantee all-time fun, consistent improvement and constant challenges. To attend the camp after enrolment, all players must wear suitable cricket clothing, shoes which we can facilitate to purchase or the players are welcome to use their own equipment.

Abdul Ghani al Balushi, head coach, is a player and coach of repute. Having cut his teeth in the local OCC hardball cricket leagues, he has played for various teams with distinction over the past decade and now plays for the senior team of Al Hail Cricket Team in the league.
